

Mainstreaming Climate Change Adaptation and Mitigation in Public-Private Partnerships (PPPs)

6th SEC-PSE Corporate Governance Forum 25 October 2019

The Philippine Climate Pledge

With the adoption of the Paris Agreement, governments have agreed to hold warming well below 2°C, and pursue efforts to limit warming to 1.5°C above preindustrial levels. Governments put forward their proposed contributions to a "fair sharing" of effort to move global emissions downward in the period 2020-2025-2030 in their Intended Nationally Determined Contributions (INDC).

The Philippines' INDC is a 70% reduction in greenhouse gas emissions below business as usual projections by 2030, conditional on whether aid is made available on financial, technological and capacity building support.

The Philippines' Rating

<< 1.5°C WORI D

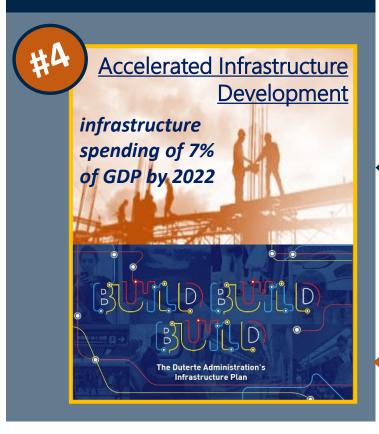

ROLE MODEL

Commitments with this rating are consistent with the 2009 Copenhagen 2°C goal and therefore fall within the country's fair share range, but are not fully consistent with the Paris Agreement

Philippine Infrastructure Development

TEN (10) POINT SOCIOECONOMIC AGENDA

Government Financing General appropriations, corporate funds

Government Borrowings Domestic & foreign debt, official development

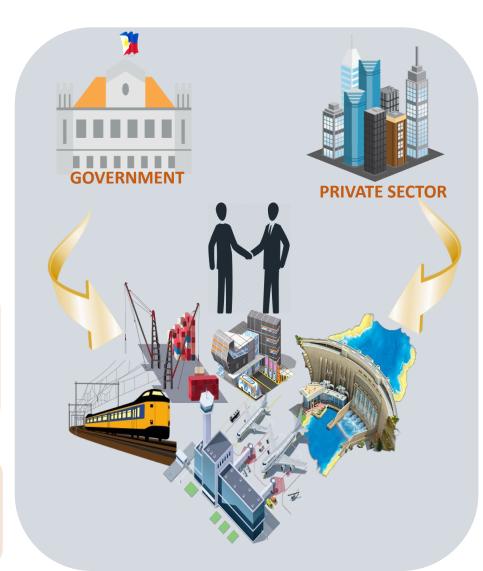

assistance (ODA)

Private Sector Financing
Public-Private Partnership
(PPP)

PPP Concept

- ✓ A contractual arrangement between the government (Implementing Agency or Local Government Unit) and private sector to accelerate provision and/or implementation of infrastructure and/or development projects or services.
- ✓ The contractual agreement provides clearly-defined roles and responsibilities of the parties/partners.
- ✓ There is allocation of rewards/revenues and costs/risks between public and private partners.

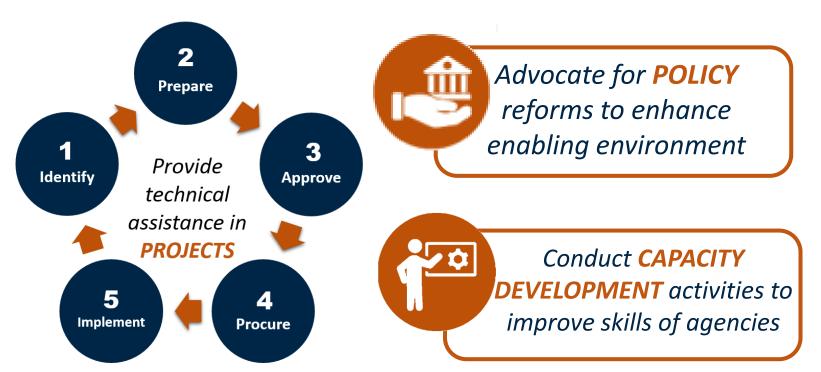

PPP Center - Mandates

The PPP Center facilitates the implementation of the country's PPP Program. It serves as a central coordinating and monitoring agency for all PPP projects in the country.

Projects, Policy & Capacity Building

Support in Project & Capacity Development

The <u>Project Development and Monitoring</u>
<u>Facility (PDMF)</u> is a <u>USD 104.5 million</u>
<u>revolving fund managed by the PPP Center to</u>
enhance the investment environment for PPP
